

Python Script Analysis

TeachEngineering

Code

Understand the logic employed in the Python code. Make modifications to code in order to find the slopes of tangents to a variety of functions.

Suggested Learning					
Time	00 : 45	Cost	0.00		
PreRequisites					
Requirements					
			 Once	 Computer	
Skills		Focus	Level	Standard	Points
	Python				2
	Mathematics				1
	Problem Solving				1
	Teamwork				1
Total Skill Points					5
Knowledge Gain					
Use the Python programming language to investigate slopes of tangents. Analyze computer code to determine its function. Make changes to computer code based on their analyses.
